AROMA BREWING EVERY TIME

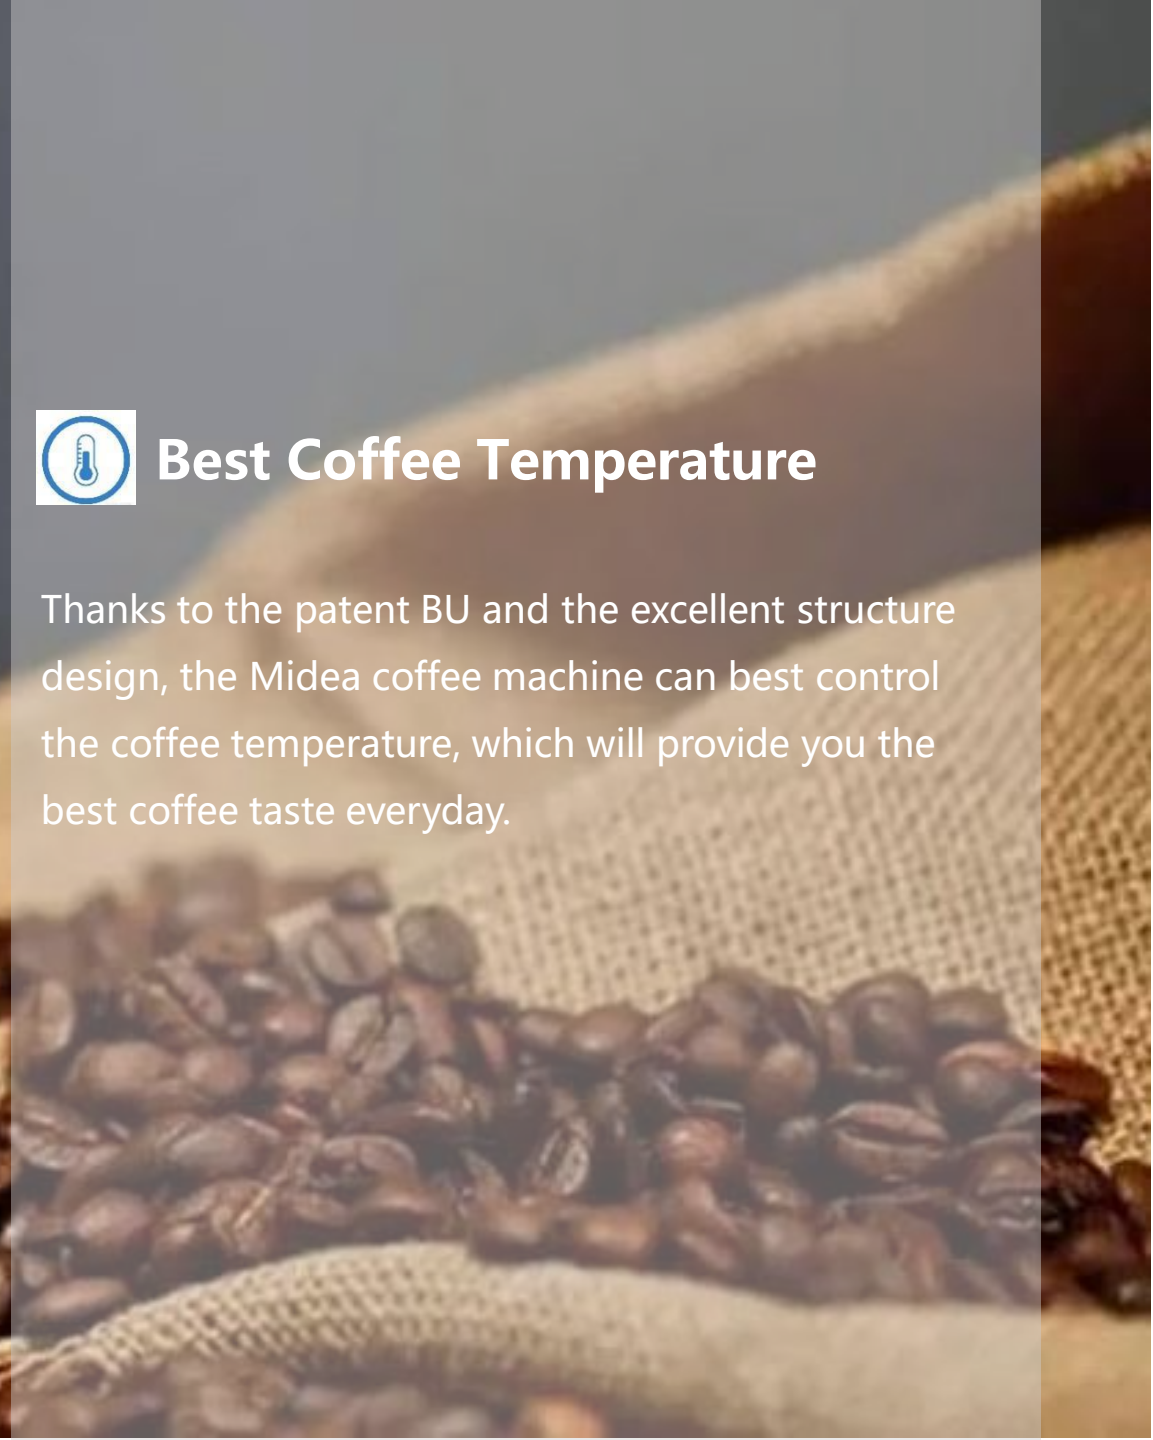

Enjoy the most aromatic flavor with optimal water/powder ratio, precise brew temperature and stable TDS as well managed in the brewing unit.

Best Coffee Temperature

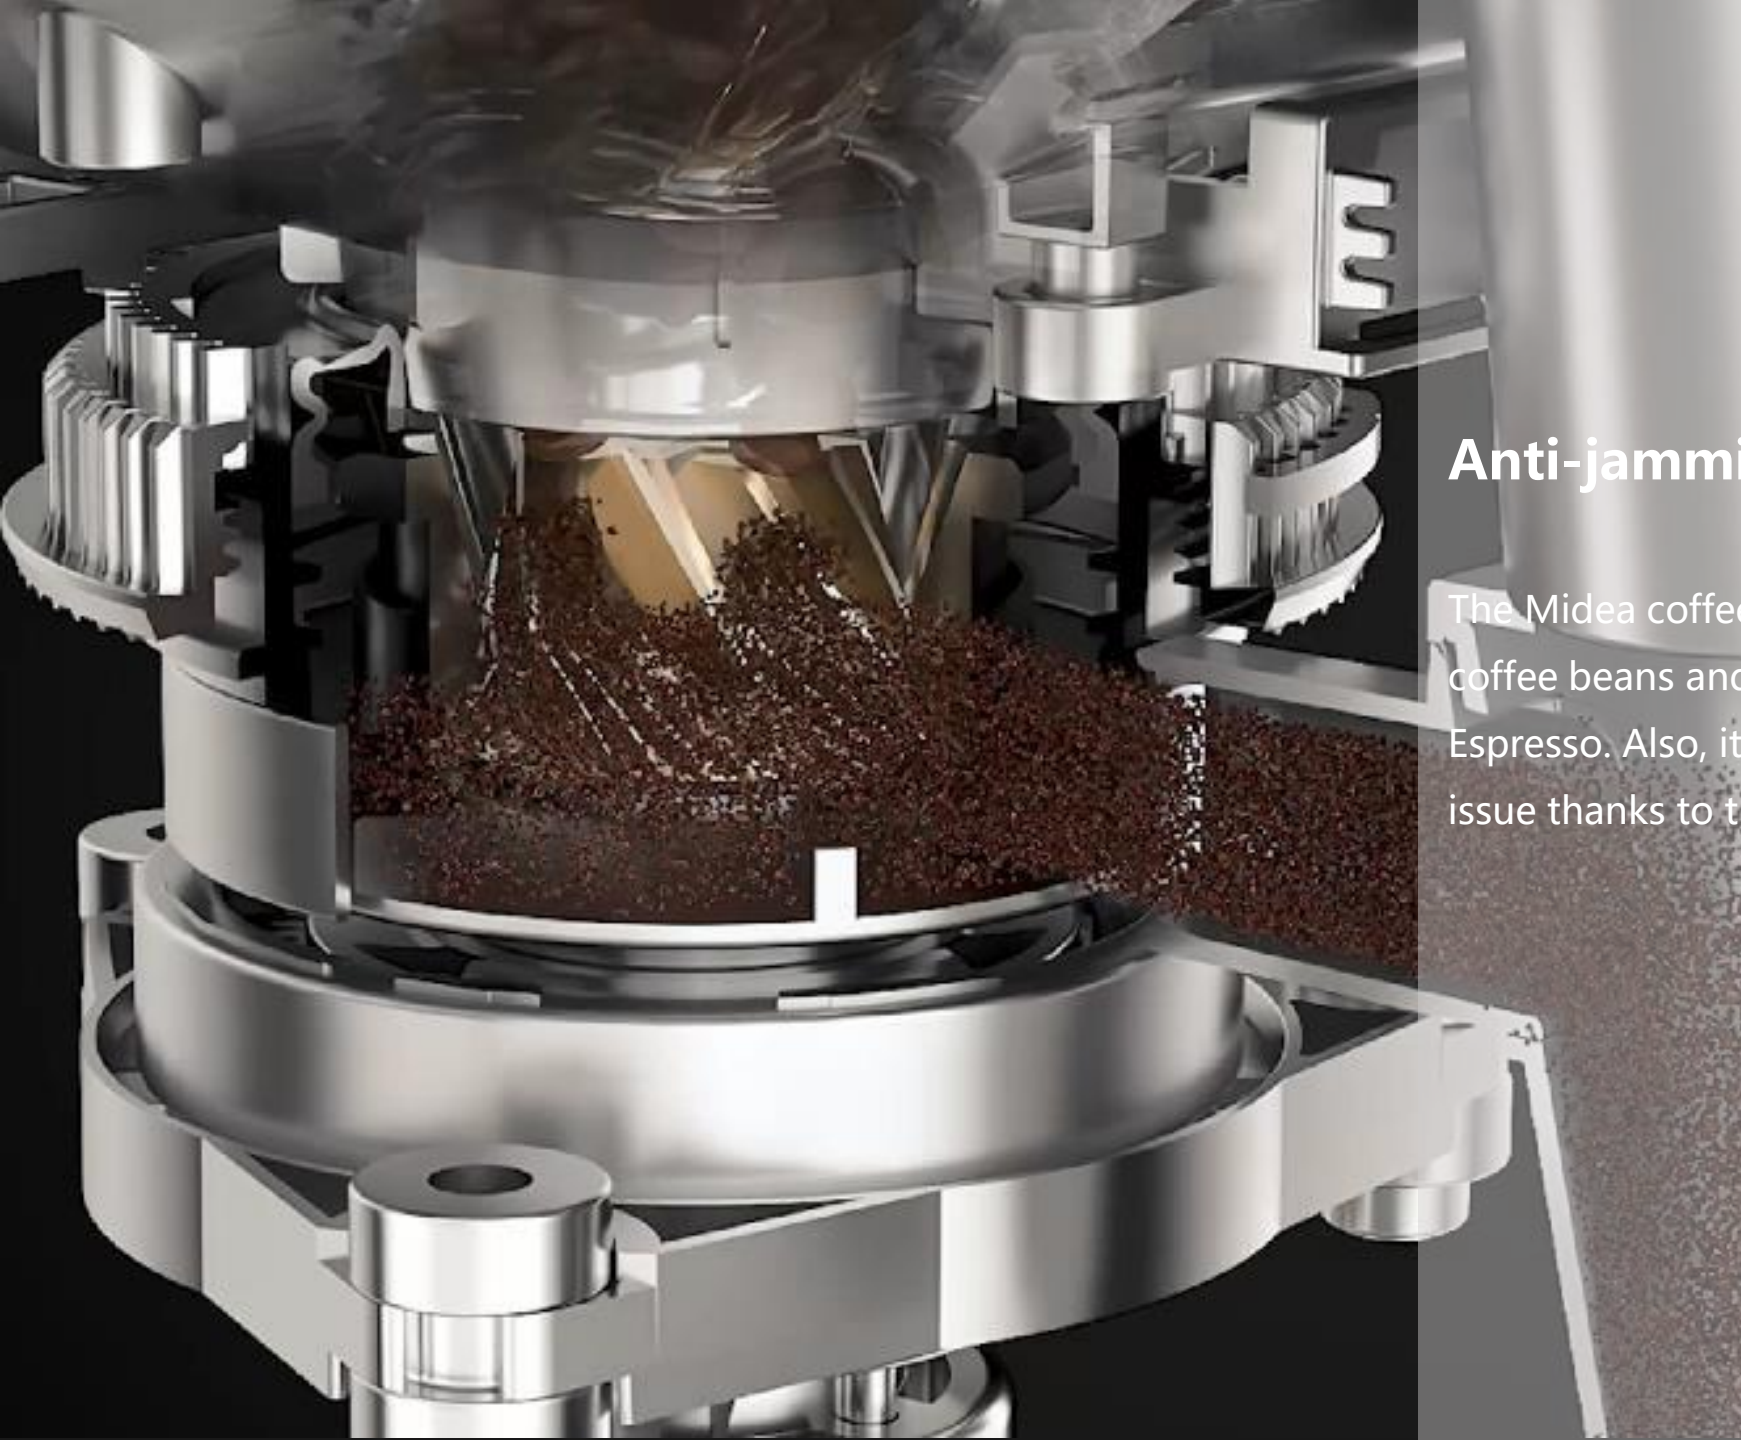

Thanks to the patent BU and the excellent structure design, the Midea coffee machine can best control the coffee temperature, which will provide you the best coffee taste everyday.

ADJUSTABLE, QUIET GRINDER

Built-in conical burr grinder with multi levels from beans to powder evenly and quietly, allowing always freshly ground coffee and good taste.

Anti-jamming Grinder

The Midea coffee machine grinder can even grind the coffee beans and guarantee a smooth taste for the Espresso. Also, it can reduce the powder tube block issue thanks to the patent anti-jamming design.

2 IN 1 COFFEE WAREHOUSE

Available for coffee bean and coffee powder

7-level Grinding

The Midea coffee machine provides 7 levels for grinding your coffee beans. From fine to medium-fine to coarse, so you can choose whatever suits you most. Also, a durable metal conical burr grinder grinds faster for an express Espresso.

DUALCREAM SYSTEM BUBBLE CREAMING

2 milk foam outlets automatically froth milk to the ideal density and temperature for latte, cappuccino, and other espresso-based drinks.

BEAN TO COFFEE IN NO TIME

Thermal heating system accelerates the water temperature rising to
create aromatic coffee in 5 seconds.

Adjustable spout with 5 holes

The adjustable spout height of the Midea coffee machine makes it suitable for every kind of cups for Espressos, Cappuccinos, Lattes etc. Also, there are 5 holes in the outlet ,2 for coffee, 2 for milk and 1 for hot water, so that you can get the best coffee without any smell pollution.

EASY TO CLEAN

Brew unit and foam outlets are fully removable.

A white and black Midea coffee machine is shown in a studio setting. The machine has a sleek, modern design with a white body and black accents. Two spouts at the top are dispensing thick, white steam, which is rising into the air. A flexible, metallic-looking hose is attached to the left side of the machine. The base of the machine features a black, ribbed drip tray. The background is a plain, light gray surface.

BRAND

Self-cleaning Milk System

The Midea coffee machine runs automatic self-cleaning of the milk system after selecting cleaning program , all parts in contact with milk can be automatically washed off with hot water and steam.

**YOUR MASTER
BARISTA AT HOME**
